Greenzy

FLAGSHIP PROGRAM · PROTECTED CULTIVATION

Greenzy's flagship program for India's protected cultivation sector

Certified Farm Operator

For people who want to run a polyhouse farm day to day: the daily work, the farm economics, turning yield into revenue, and dealing with the buyer.

Execute › Observe › Record › Escalate

WHO IT IS FOR

- Students who want to work on commercial polyhouse farms
- Farm staff who want to run a house without being told every step
- Farm owners and family members who will run their own farm

The 13 modules

01 **Protected cultivation systems.** How a polyhouse works.

02 **Irrigation and fertigation.** Pumps, filters, dosing, flushing.

03 **Water quality and basic chemistry.** Salt levels, acidity, drain readings.

04 **Daily operations and record-keeping.** The four daily farm sheets.

05 **Sanitation and biosecurity.** Keeping the farm clean and disease out.

06 **Pest and disease observation.** Scout, record and escalate early.

07 **Crop procedure execution.** The written procedure for cucumber.

08 **Safety and equipment handling.** Chemicals and machines, safely.

09 **Risk and ethical conduct.** Honest records, timely escalation.

10 **Farm economics.** The money behind daily decisions.

11 **Yield to revenue.** Plants, yield, grade, price, revenue.

12 **Sales and the buyer.** Your role at the point of sale.

13 **Market awareness.** Where produce goes; first buyer contact.

Every module has a slide deck, a printed workbook, field activities on the farm and online activities.

Format and time

Format	In person in Coimbatore, at the Greenzy farm and Experience Centre.
Time	13 modules over about one month, then a practicum on a working polyhouse.

How you are assessed

After every module. 10 multiple-choice and 3 scenario questions on academy.greenzy.in, 25 marks. Pass mark above 70%.

Final exam. After all modules and the practicum: 25 multiple-choice and 5 scenario questions, 50 marks. Hard on purpose.

Certificate. Numbered, signed by the Director, and it does not expire.

What you will be able to do

- Run a farm day from a written plan
- Operate irrigation and dosing; read drain results
- Spot problems early and escalate them
- Keep records an owner can act on
- Explain how a crop becomes revenue

> Farms hire people they can trust with a crop. This certificate shows what you can do, wherever you apply.

How to join

1 **Readiness Test** — Free, optional, and the way to the scholarship.

2 **Register** — On WhatsApp, with your program and background.

3 **Confirm** — We confirm cohort, dates and fees.

4 **13 modules** — In person, an exam after each.

5 **Practicum** — On a working polyhouse.

6 **Final exam** — Pass it for your certificate.

Founder's List Scholarship

Score 8 or more out of 10 on the free Readiness Test and apply for a partial fee waiver. We confirm it after a short call. Test: greenzy.in/staff/test

Fees and cohorts

Fees and the next cohort dates are confirmed when you register. Both programs are on par; neither leads to the other.

Register on WhatsApp: 78100 64523

Tell us which program and your background. Scan for the full details and the Readiness Test.
