Greenzy

FLAGSHIP PROGRAM · PROTECTED CULTIVATION

Greenzy's flagship program for India's protected cultivation sector

Certified Junior Agronomist

For people who want to go deep on growing: plant science, diagnosis, and the decisions that move yield.

Observe › Measure › Interpret › Hypothesise › Verify › Recommend › Monitor

WHO IT IS FOR

- Agriculture and horticulture graduates who want to advise farms
- Experienced farm staff ready to make growing decisions
- Farm owners who want to understand their own crop

The 13 modules

01 **Plant physiology.** Sources, sinks and stress.

02 **Root zone and substrates.** Water, air and salts at the roots.

03 **Irrigation strategy.** Choose it, then check it works.

04 **Nutrition and fertigation strategy.** Nutrients, not fertilisers.

05 **Crop steering.** Vegetative and generative balance.

06 **Climate management.** Heat, humidity and ventilation.

07 **Pest and disease diagnosis.** Root causes and integrated control.

08 **Crop production systems.** Cucumber, tomato, capsicum, greens.

09 **Reading farm data.** Trends, dashboards, triggers.

10 **Yield assurance.** Find the limiting factor and fix it.

11 **Farm economics.** Cost per kilogram, return per action.

12 **Communication and leadership.** Lead operators, write recommendations.

13 **Capstone practicum.** Diagnose real farm data and defend it.

Every module has a slide deck, a printed workbook, field activities on the farm and online activities.

Format and time

Format	In person in Coimbatore, at the Greenzy farm and Experience Centre.
Time	13 modules over about one month, then a practicum on a working polyhouse.

How you are assessed

After every module. 10 multiple-choice and 3 scenario questions on academy.greenzy.in, 25 marks. Pass mark above 70%.

Final exam. After all modules and the practicum: 25 multiple-choice and 5 scenario questions, 50 marks. Hard on purpose.

Certificate. Numbered, signed by the Director, and it does not expire.

What you will be able to do

- Diagnose a crop problem from measurements
- Set irrigation, nutrition and climate strategy
- Write and defend a recommendation
- Find what is holding yield back
- Lead operators through a weekly plan

> Farms hire people they can trust with a crop. This certificate shows what you can do, wherever you apply.

How to join

1 **Readiness Test** — Free, optional, and the way to the scholarship.

2 **Register** — On WhatsApp, with your program and background.

3 **Confirm** — We confirm cohort, dates and fees.

4 **13 modules** — In person, an exam after each.

5 **Practicum** — On a working polyhouse.

6 **Final exam** — Pass it for your certificate.

Founder's List Scholarship

Score 8 or more out of 10 on the free Readiness Test and apply for a partial fee waiver. We confirm it after a short call. Test: greenzy.in/staff/test

Fees and cohorts

Fees and the next cohort dates are confirmed when you register. Both programs are on par; neither leads to the other.

Register on WhatsApp: 78100 64523

Tell us which program and your background. Scan for the full details and the Readiness Test.
